TREAT YOURSELF

Claudia

B R A G A

- Specialist in Orofacial Harmonization and Pediatric Dentistry
- Coordinator of the Orofacial Harmonization Specialization Program – Anatomy First
- Lecturer of open courses in Orofacial Harmonization and Hands-On Training on Fresh Cadavers
- Co-founder of INTEGRAL HEALTH EDUC
- Master's Degree in Dentistry with emphasis in Orofacial Harmonization
- PhD candidate in Dentistry – IDOMED/ESTÁCIO

ABOUT

A unique and disruptive experience in Orofacial Harmonization!

With the support of Revanesse, you will learn facial filler techniques through hands-on training on fresh cadavers at ITC Rio de Janeiro, as well as a live demonstration on a patient.

The first four enrolled participants will also be treated by Dr. Claudia Braga herself – the concept of “treat yourself.”

In this one-of-a-kind experience, participants will stay in carefully selected accommodations for full immersion. As a bonus, there will be presentations on the Orofacial Harmonization market, personal branding, networking, and innovations.

Secure your spot now and get ready for a journey of learning and connection!

A close-up portrait of a woman with long, wavy blonde hair and green eyes, looking directly at the camera with a slight smile. She is wearing a dark, possibly black, garment. The background is dark and out of focus.

PROGRAM CONTENT

NOVEMBER, 26th

Cadaver Lab

- Facial Anatomy and Physiology applied to Orofacial Harmonization: Study of layered anatomy and application planes;
- **HANDS-ON FACIAL FILLERS:**
Hands-on filler training on fresh specimens using material similar to hyaluronic acid, allowing immediate visualization of injection effects in each tissue plane, as well as identification of key anatomical landmarks during the passage of the cannula or needle;
- Study of dissected anatomical specimens;
- Tactile training and handling of cannulas and needles in different application planes. Techniques for various facial regions in a global facial structuring approach: temples, zygomatic arch, maxilla and premaxilla, tear trough, orbital frame, piriform fossa, oral commissures, chin, and mandible;
- Includes nose reshaping (rhinomodelling) and lip filling techniques;
- Complementary techniques to enhance outcomes: botulinum toxin, intradermal therapy, biostimulators, and PDO threads.

DIFFERENTIALS

The "Treat Yourself" course, taught by Dr. Claudia Braga, stands out in the Orofacial Harmonization market by offering a unique and truly transformative experience.

The differentials that make this course unparalleled are based on three fundamental pillars:

1.

Exclusive hands-on experience with fresh cadavers

Unlike many courses that use synthetic materials or simulators, "Treat Yourself" offers the unique opportunity to work directly on fresh cadavers. This approach provides an unmatched level of realism, allowing participants to visualize the effects of injections in different tissue planes.

This realistic practice offers deep and practical learning of facial filler techniques — something rarely replicated in other contexts.

BRAGA

2.

Full immersion in an exclusive environment

This course goes beyond technical learning. It's a true immersion in a carefully selected location, such as Casa Luz in Paraty. Set in a peaceful setting and in direct contact with nature, this exclusive environment is ideal for focusing on learning, networking, and personal development.

Moreover, the first six registrants will have the privilege of being treated by Dr. Claudia Braga herself, providing a unique, hands-on and personalized experience in the market.

3.

Comprehensive content and technological innovations

“Treat Yourself” is not just a course, but a full immersion in the innovations of the Orofacial Harmonization market. Participants will have access to the latest technologies from Revanesse and Reface Tech, as well as strategic content focused on market positioning and trends that can significantly increase revenue.

This course prepares professionals not only technically, but also strategically — offering a complete and up-to-date view of all aspects of a career in Orofacial Harmonization.

PROGRAMMED CAMPAIGN

CLUB 250 REVANESSE®

By purchasing the Revanesse scheduled program (250 boxes) by December, you automatically guarantee one of the exclusive spots in the Season: Treat Yourself – Summer 2025 — a unique opportunity to combine your commitment to product excellence with a high-level practical immersion where the products will be explored, taught, and applied in depth.

More than a reward, this is a way to turn your strategic choice into real experience: learning from those who teach, using with those who master, and living all of it in an environment designed for your technical and personal growth.

Reminder: 60% of the program must be completed by November. The full experience is already included in the package. You bring your trust in Revanesse — and it rewards you with the experience that solidifies it in practice.

** Purchase and negotiation directly with Revanesse and its representatives.*

PARTNER

Founded in 2002, **Revanesse®** is a state-of-the-art dermal filler line, designed to be as unique as you are.

Manufactured in Canada, with over 5.5 million syringes sold worldwide, **Revanesse®** is reshaping the aesthetic experience in more than 80 countries.

It is one of the few brands in the global — and Brazilian — market with approval from the FDA (U.S. regulatory agency), in addition to Brazilian Health Accreditation ANVISA, CE, and ISO 13485 certifications.
